

# LOUVER FENCE

# ALUMINIUM GARDEN FENCE

## ALUMINIUM GARDEN FENCE

# F100

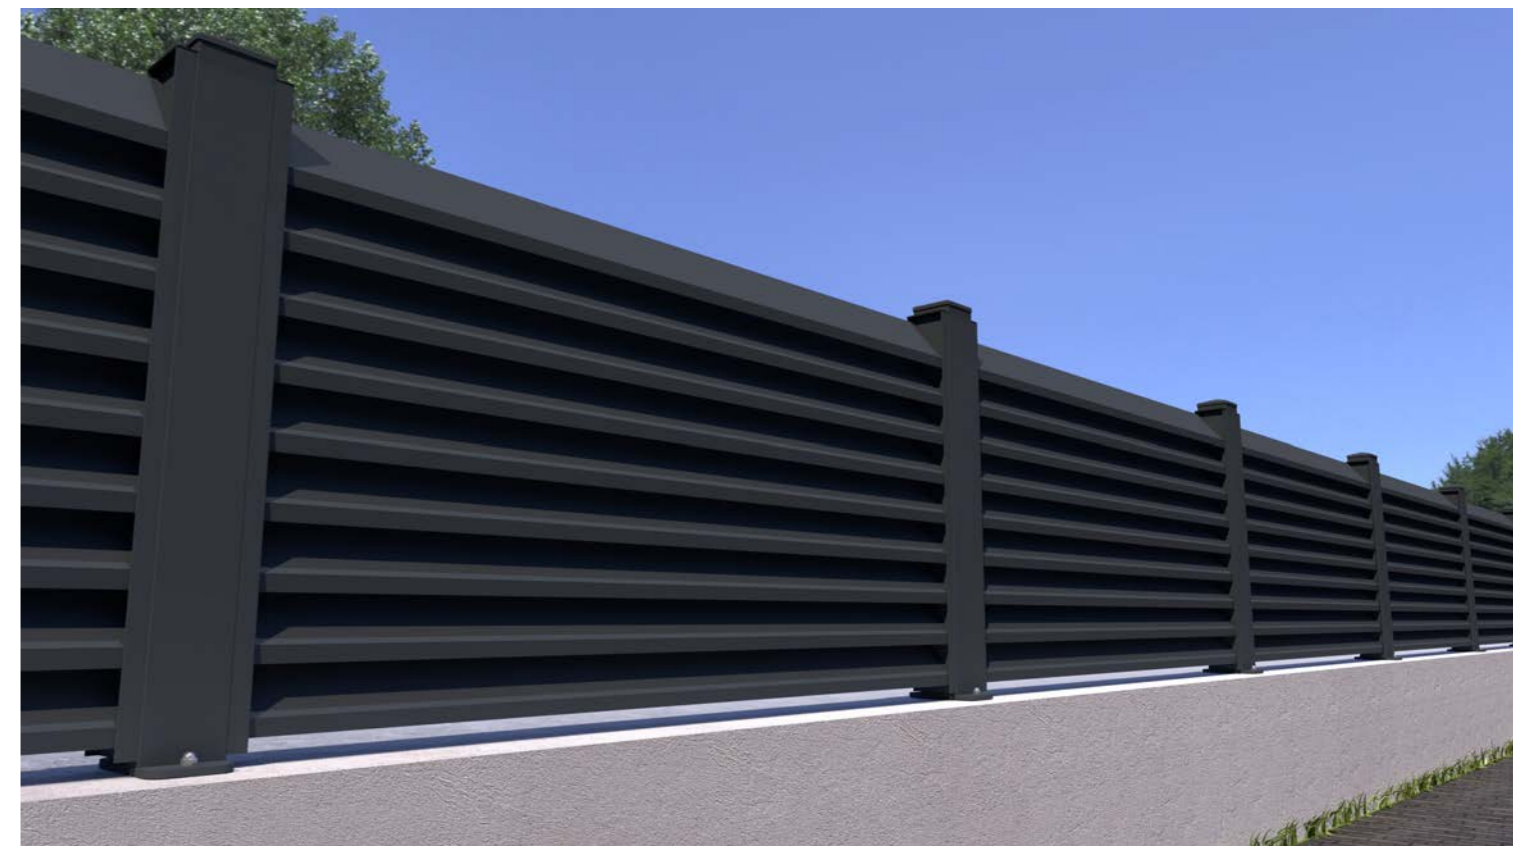

Enjoy the utmost privacy in your garden thanks to the aluminium fences produced by BTS. Aluminium privacy fences have become very popular, above all due to their high-quality design for single and multi-family dwellings and other buildings. Our aluminium fencing enhances landscaping and adds security to a garden, pool, or building, while not hiding views. This innovative system represents a durable and stable fence model which has 4" + 4" post and louver shelves. The result is an exclusive garden fence for the modern garden.

The system contains angled louver aluminum profiles which cancels the view from outside. Installation is simple and precise. After connecting the post profile to the base connector, just fix the base connector on the ground directly with using appropriate screws or anchors. The panel width can vary up to 6'-7" and it is even possible to reach a height of 7'-3". F100 is the perfect solution if you want more privacy.

- 4" + 4" Aluminium post
- Angled louver profiles.
- Screws are not visible.
- Simple, clean and stylish lines.
- Strong, light and rust free.
- Easy do-it-yourself assembly

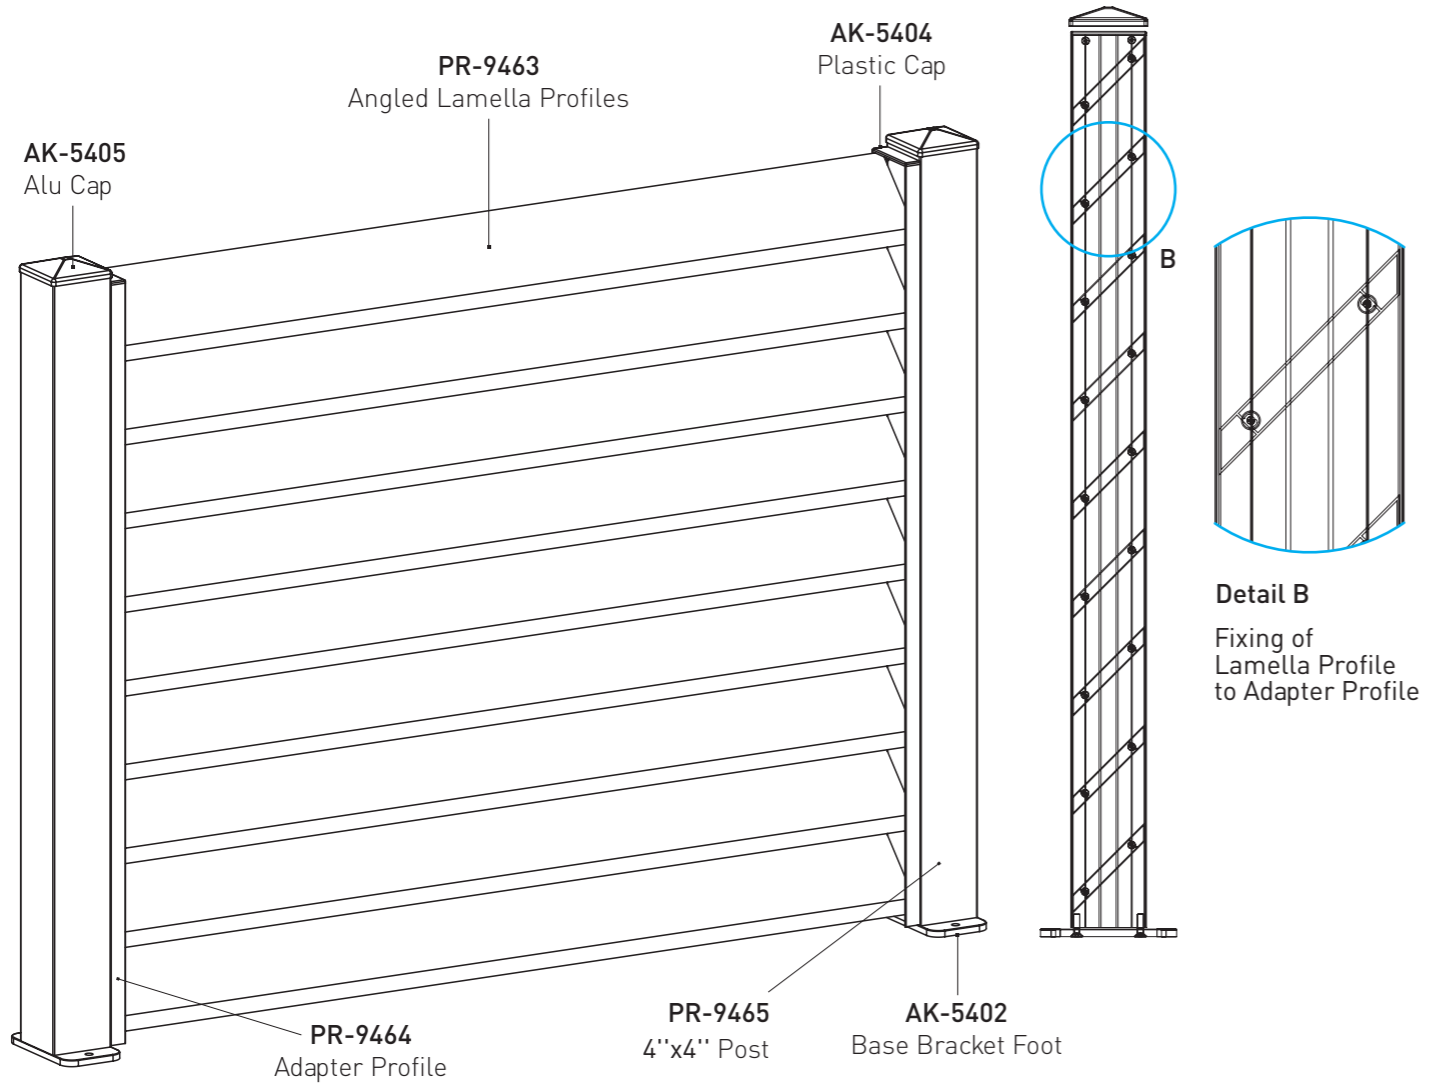

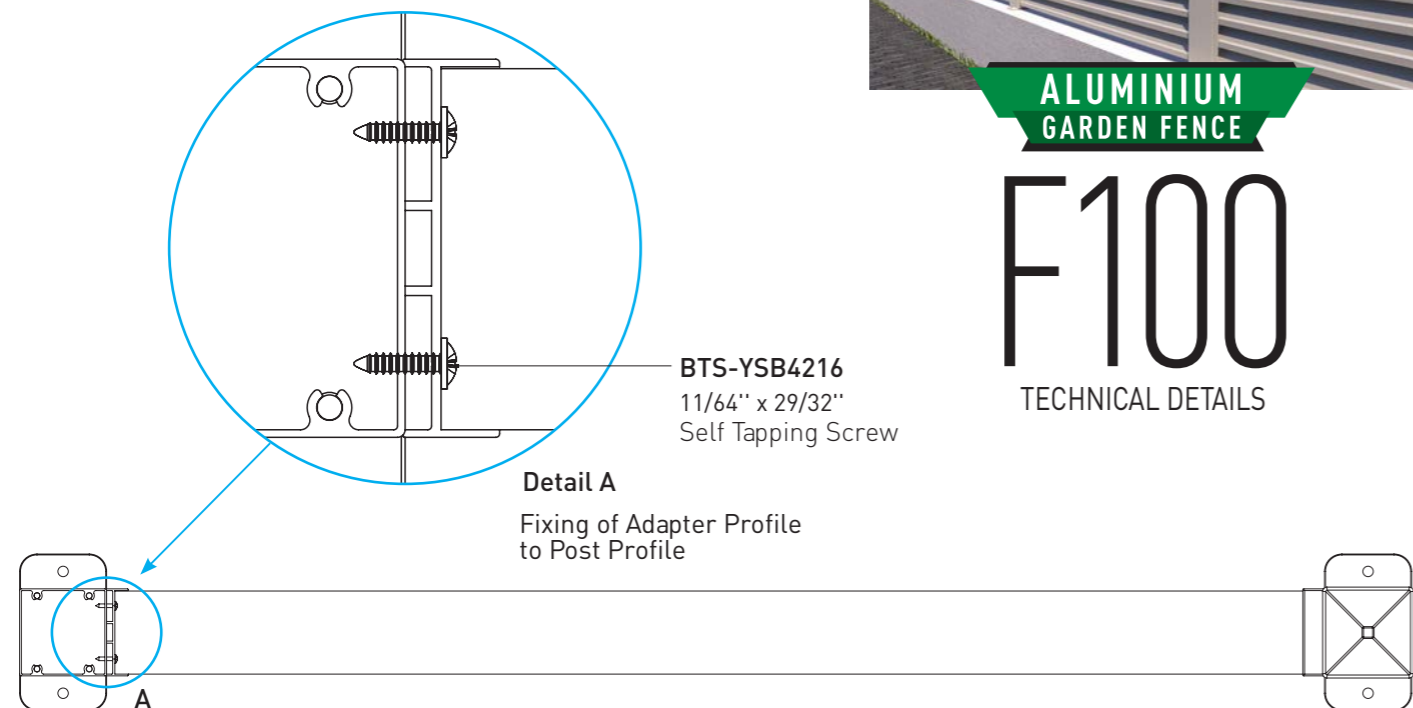

### Standard RAL Colors

- Black (RAL 9005)
- Anthracite Grey (RAL 7016)
- White (RAL 9016)
- Cream White (RAL 9001)
- Signal Grey (RAL 7004)
