

LIGHT, AIR AND SPACE

Sliding and folding walls, doors and windows

4 SLIDING WALLS

6 FOLDING WALLS

8 DOORS

10 WINDOWS

Space to feel good in

Do you love space and enjoy comfort? Pergola Room sliding and folding walls create a unique spatial experience in your home – no matter which option you choose.

Our window and door constructions meet the highest requirements for contemporary quality of living.

Why aluminium?

Modern windows have to be well-insulated, durable and easy to care for. Aluminium meets these three requirements perfectly and offers the following additional benefits:

Lightweight, but sturdy and durable.

Long life and complete recyclability without quality loss.

More than 75% of the aluminium that has ever been extracted is still in use today.

Excellent thermal insulation thanks to thermal separation and airtightness.

SLIDING WALLS

Easy to use, complete transparency

Our sliding walls allow you to erase the boundaries between the interior and exterior. They transform rooms into spacious living spaces and offer an open view to the outside through their extensive glazing and discrete profile. The sliding doors can be pushed open quietly and easily to the side with a few simple steps. It's an intelligent system that saves space while also opening indoor spaces up to the outdoors.

Create your own
personal free space.

4
5

Constructed from high-quality materials with technical perfection, our durable sliding solutions meet high requirements for sound insulation and thermal insulation. They are waterproof and windproof and offer a high level of security. Thanks to a wide range of design options, our sliding walls adapt optimally to the individual architecture of your home.

COMFORT CLOSE & MICROVENT TECHNOLOGIES

HIGH EASE OF USE

UP TO 6 PANELS FOR LARGE OPENINGS

CORNER-FREE SOLUTIONS POSSIBLE

FOLDING WALLS

Generous openings for open living

With the first rays of sun, our folding walls spark your desire to enjoy warmth, light and freedom. Evenly folded to the side, the slim aluminium system offers a generous opening to your terrace, balcony or garden. This allows areas interior and exterior spaces to be combined skilfully – in private homes as well as in restaurants or cafés.

Open up new perspectives
in every direction.

6
7

Our folding walls meet the highest demands on modern design without compromising on energy performance. The door panels can be custom-arranged and move silently on lower guided rollers. With a turn of the hand, you can bring indoor life outdoors – or the other way around.
