ELEGANT SLIDING PANELS

Shading Panel 17

Shading Panel 17

Elegant and most
effective protection
against too much sun

Shade, wherever you want it

We do love the sun. But sometimes and on some days, we just need suitable protection from too much sun. This is where the elegant Shading Panel 17 sliding panels will come through as the ideal shading solution.

From right to left and back

The Shading Panel 17 sliding panels move effortlessly to any desired position. These sliding panels adjust in the blink of an eye with the movement of the sunshine.

The perfect combination

The Shading Panel 17 can be combined with the VG 17 all-glass sliding wall, which makes it the ideal addition for a terrace roof from Pergola Room.

So many benefits

- Effective protection against excessive sunlight.
- Slides with ease to the desired position.
- Can integrate into the VG 17 all-glass sliding system without an additional floor profile.
- Several sliding panels can run on the same track.
- 27 standard colour options for optimal integration into your summer garden.

Stylish sun and privacy protection
